SB 2205 (25.0784.02000)

Judiciary Committee (Sen. Larson, Chairman) recommends **DO PASS** and **BE REREFERRED** to the **Appropriations Committee** (7 YEAS, 0 NAYS, 0 ABSENT AND NOT VOTING). SB 2205 was rereferred to the **Appropriations Committee**. This bill does not affect workforce development.

NORTH DAKOTA Family Alliance LEGISLATIVE ACTION

Faith · Family · Freedom

Testimony in Support of Senate Bill 2205

Mark Jorritsma, Executive Director
North Dakota Family Alliance Legislative Action
January 22, 2025

Dear Madam Chair Larson and honorable members of the Senate Judiciary Committee,

My name is Mark Jorritsma and I am the Executive Director of North Dakota Family Alliance Legislative Action. I am testifying on behalf of our organization in support of Senate Bill 2205 and respectfully request that you render a "DO PASS" on this bill.

Our organization is, and always has been, opposed to legalized gambling in North Dakota. In part, we are opposed to gambling given the variety of disorders and negative secondary impacts it can create for North Dakota families. It is vital that we as a state help our citizens deal with these issues sooner as opposed to later – particularly before gambling disorders create even worse problems down the road. Thus, we agree with additional funding of the gambling prevention and treatment fund.

While we would have liked to see even more funding go towards help for those with gambling disorders, we appreciate the continuation of this important program, and the additional funding proposed in this bill. For these reasons, North Dakota Family Alliance Legislative Action asks that you please render a "DO PASS" on Senate Bill 2205.

Thank you for the opportunity to provide this testimony, and feel free to contact us if you have any questions.

Mark Jorritsma
Executive Director
North Dakota Family Alliance Legislative Action

SENATE JUDICIARY COMMITTEE
Senate Bill 2205
January 22ND, 2025
Testimony Submitted by Charitable Gaming Association of ND

The Charitable Gaming Association of North Dakota supports a **Do Pass** recommendation on SB 2205.

Chairperson Larson & Committee Members,

On behalf of the North Dakota Charitable Gaming Association of North Dakota, we ask for a yes vote on Senate Bill 2205.

The North Dakota charitable gaming industry supports funding for gambling disorder prevention and treatment programs for individuals of this state. This bill increases the quarterly allocation from $10,000 to $75,000 for the gambling disorder prevention and treatment fund administered by the ND Department of Health and Human Services.

This funding is generated from the taxes collected on ND charitable gaming activity, and we believe there is ample revenue provided through charitable gaming to support comprehensive treatment programs. Nearly $45 million (est.) in taxes were raised from charitable gaming operations this past biennium.

Thank you for your consideration of a **Do Pass** recommendation on SB 2205.

NORTH Dakota | Health & Human Services
Be Legendary.

Testimony
Senate Bill No. 2205
Senate Judiciary Committee
Senator Diane Larson, Chairman
January 22, 2025

Chairman Larson, and members of the Senate Judiciary Committee, I am Lisa Vig, Gambling Disorder Counselor- Clinical Lead with the Department of Health and Human Services (Department). I appear before you in support of Senate Bill No. 2205.

During the 68th Legislative Assembly an appropriation of $500,000 was allocated to the Problem Gambling Treatment and Prevention fund from charitable gaming. This created a total biennium budget of $1,212,800. Senate Bill No. 2205 would ensure ongoing support for this fund at the same level of funding to address growing gambling disorder concerns for individuals in the state.

The Problem Gambling Team has kept extensive data on those who have sought services for the past 20+ years. Recently, the following trends have been noted:

- Electronic pull tab machines have been identified by clients as the most problematic form of gambling since 2019.
- In the most recent 6 months, online gambling activity has tied with casino gambling for the second most problematic form of gambling identified by clients.
- The gender of individual's served is 50% male and 50% female. The prior 6 months had been primarily male.

- The primary age group seeking help has consistently been 31-40. In the past 6 months, there has been a noticeable increase in the 18-30 age group.
- Since FY 2022, **570** North Dakotans have received treatment/counseling services. **3,449** hours of in person and telehealth counseling hours have been provided by the 3 clinicians delivering services.

Currently, there is an Administrative Assistant dedicated for problem gambling services and 3 certified clinicians treating Disordered Gambling across North Dakota. Two clinicians serve the eastern side of North Dakota and 1 clinician serves western North Dakota.

In the 2023-2025 legislative session the question of how many problem gamblers are in ND was repeatedly asked. An incidence and prevalence study is currently underway with designated funding from the last session. Principal researcher Rachel Volberg of Gemini Research is conducting the study. The findings of this research study are forthcoming. Incidentally, she conducted the very first incidence and prevalence study in 2000, in partnership with the ND Indian Gaming Association.

Gaps remain in the continuum of care around problem gambling:

- Representative Payee services/trusted debt consolidation and debt restructuring programs are lacking.
- Arrangements among gambling entities to create a system where 'self banning' from establishments is available.
- Funding to offer financial support to ND residents who are needing inpatient placement. Approximately 4 designated inpatient programs are available in the US for problem gambling.

- Residential housing for those needing additional accountability, structure, and support as they pursue recovery.
- Designated prevention and educational programs for middle and high school.
- Designated prevention and educational programs for our State universities and colleges.

If funding outlined in Senate Bill No. 2205 continues, the Department would:

- Continue to fund the current problem gambling team of 4 to provide and support gambling disorder treatment services.
- Train behavioral health and addiction counselors on screening for gambling disorder.
- Continue of contracts to promote awareness of services and promotion of problem gambling prevention.

This concludes my testimony. I would be happy to try to answer any questions the committee may have. Thank you.

NORTH DAKOTA GAMING ALLIANCE

Benefiting North Dakota Communities through Charitable Gaming

Testimony in SUPPORT of Senate Bill 2205

Madam Chair Larson and Members of the Senate Judiciary Committee:

I'm Scott Meske, representing the North Dakota Gaming Alliance and on behalf of the 178 Members of the NDGA, we offer our support for Senate Bill 2205.

The NDGA has long supported using gaming tax proceeds to properly administer and regulate the industry including addressing gambling disorder needs. Rather than resort to biennal, one-time funding requests, we support a regular stream into these programs, whatever that amount may be needed. We also encourage the Legislative Assembly to require regular reports from the program, to ensure funds are utilized to benefit the most individuals.

We believe there is more than enough revenue from gaming-generated taxes and contributions to support a comprehensive gaming addiction and treatment program in North Dakota, run by the Department of Health and Human Services.

The North Dakota Gaming Alliance urges a DO PASS on SB 2205.
